

## REMARKS

Entry of the foregoing amendments is requested.

New claims 18-23 are identical with previous, and now cancelled, claims 4-9, but rewritten to depend from claim 10.

No new issues are raised, as the previous response filed 11 April 2005 noted that the Advisory action eliminated Inoi and JP '250 as references, and hence the rejections of claim 10 were effectively withdrawn. These newly added claims are thus dependent on an allowable claim, and because there were no non-prior art rejections of previous claims 4-9, the submission of those claims in dependent form from an allowable claim raises no new issues.
